Objective

Ambitious first-year Computer Engineering student with a growing interest in Artificial Intelligence and Data Science. Eager to build a strong foundation in programming, data analysis, and intelligent systems while working on real-world projects. Seeking opportunities to learn, apply AI-driven concepts, and develop analytical and problem-solving skills in a technology-focused environment.

Education

Fr. Conceicao Rodrigues College of Engineering | Mumbai

Bachelor of Technology in Computer Engineering (Expected Graduation: 2029)

Higher Secondary Education (HSC)

Spectrum: Gateway to Success (Completed: 2025)

Secondary Education (SSC)

Horizon Academy | Nashik (Completed: 2023)

Experience

Student Developer (Academic & Personal Projects)

- Worked on academic and self-driven programming projects to strengthen problem-solving skills.
- Gained hands-on experience in writing clean and efficient code using multiple programming languages.
- Practiced debugging, logic building, and basic software development workflows.
- Collaborated with peers on mini-projects, improving teamwork and communication.

Key Project

Student Information Management System

Technologies: Python, SQL

- Implemented CRUD operations for managing student data.
- Integrated SQL database for structured data storage.
- Added input validation to ensure data accuracy.

Technologies

Programming Languages: Python, JavaScript, C, C++, SQL

Soft Skills

- Strong communication skills
- Teamwork and collaboration
- Adaptability and quick learning
- Logical thinking and problem-solving

Languages Known: English, French, German
